

Sophie fra Sveits

– hun liker å syng, spille fiolin og gitar,
ridning, tennis

Navn: Sophie
Født: 2003
Ankomst: januar 2019
Periode: våren 2019

Allergier: inger
Interesser: tennis, ridning, musikk
Søsken: 1 eldre søster

Dear Host Family,

I'm Sophie and live in a nice house with my family in Switzerland. Our house is in the city, not directly in the center but close to it and close to the lake which I really appreciate, and we have a garden. My family consists of my mother, my father and my older sister. We've got a cat named Litzi and I also got three rats. In my free time I like to play with my cat and my rats. When I have time, I do handicrafts.

When we haven't planned anything for the weekend we often do something very spontaneous. Because my family is so spontaneous we always have our bathing suits in our car so we can always go swimming when we want to.

In the morning I get up and go downstairs to have breakfast with my family. We leave the house together around 7:15. I go to school and chat a bit with my friend Sara. At noon we get some food for lunch together and then we head back to school. When I'm done with all my homework I go to the lake with my neighbor Tanja. We always laugh a lot together but sometimes I just read a book, do something creative or watch series. When my parents come home from work we eat dinner together as a family. We usually remain at the table after having finished and talk about our days, our plans and sometimes about the economy or what's going on in the world.

I play the guitar but only since half a year. Before I started to play the guitar I played the violin for several years. I play tennis and like athletics. And I love horse riding and ice hockey. I also really like to sing or just listen to music.

I would like to make an exchange because I'm very open minded and interested in new things. I want to get to know the Norwegian culture, language and nature.

I'm already looking forward to the great time with you.

Best regards

Sophie
